ABOUT ME

I am an experienced Tepicho Admin who also has a extensive experience as a full-on Chinlo Engineer. I have worked with diverse and multinational teams, contributing with my skills to reach a common goal.

I am endowed by a curious mindset which, fueled by a "can do" attitude, has in the past helped me overcome a lot of obstacles. Sometimes it might detour me from the current task, but more often than not it helped me find the solution I needed to solve a problem.
